

Directions: *(sung to the tune of Winter Wonderland)*

AP Psych is filled with yearning
For all the theories we are just learning
We Read Myers and Hock
In our mind concepts lock
Surfing in a wiki-wonderland.

You all have a unit leeching
Inside your brain that you'll be teaching
To all of your peers
We'll conquer those fears
Surfing in a wiki- wonderland.

CHORUS: On the web is where you'll build a wiki
Filled with all the fun that you can take
Compiling all the information clearly
A cumulative review is what you'll make!!

Make a tool that we'll all love
All your questions, you'll rise above
And explore theories past...
Your retention will last
Surfing in a wiki-wonderland.

-M. Erickson December 2008
